

XM Radio is the best for getting up to date traffic and weather for major cities. I map for a living and am constantly on the road, and with XM I can tune in major cities, Orlando, Tampa, Washington DC, just to name a few, to check the local traffic and weather conditions prior to arriving in the city and find alt routes if needed. Also the fact that you can listen to one station on my long commutes and not constantly surf for new channels is certainly safer. XM gives me the choice to listen to what I want to listen to, when I want to, where ever I happen to be on the raod, not just what happens to be on the air where I happen to be at. XM is our choice, not theirs!
